

— CONTRACTOR BODY LINEUP / 2026 EDITION

Outlast. Outwork. Outperform.

Purpose-Built for the Trades. An open-bed contractor lineup with overhead-accessible top boxes and secure lower storage — engineered for framing, concrete, roofing, and general contracting crews.

FALCONBODIES.COM

VOL. 05

— THREE CORE PILLARS —

Built on the principles that define the industry.

Every Falcon Contractor Body is engineered around three uncompromising standards — strength, organization, and fleet readiness.

01 / DURABILITY

Engineered Strength

Reinforced steel construction and precision welding built to carry crew, material, and equipment loads day after day.

02 / ORGANIZATION

Total Storage

Full-length top boxes over enclosed lower compartments keep long tools overhead and heavy gear locked below — with a wide-open cargo bed in between.

03 / FLEET

Fleet-Ready

Two body lengths on 84CA and 120CA chassis platforms cover everything from a trade-crew truck to a full material hauler.

— CONTRACTOR BODY LINEUP

**Built for the crew.
Built for the load.
Built to work.**

— WHY FALCON

Contractor Bodies built for open hauling, secure storage, and **reliability**.

Falcon Contractor Bodies combine the open bed of a flatbed with the organized, lockable storage of a service body. Overhead top boxes carry long tools and material; lower compartments secure the expensive gear; the 59-inch cargo area hauls everything else.

168"

max body length (14')

95"

body width, both current models

2

body lengths — 12' & 14'

FIELD-PROVEN

One platform, two lengths — the open-bed trade-truck layout, built to Falcon standards.

STANDARD EQUIPMENT

Standard features that set a higher standard.

Every Falcon Contractor Body ships with the same uncompromising baseline — overhead storage, secure lower compartments, and an open cargo bed, built on Falcon's steel-body construction standard.

01 OVERHEAD TOP BOXES

Full-length top compartments carry ladders, conduit, and long tools off the bed floor.

03 OPEN CARGO BED

A 59"-wide open cargo area between the packs hauls bulk material and equipment with easy side access.

05 TIGER® WHITE POWDER-COAT

Multi-stage powder-coat for maximum gloss and corrosion resistance.

02 SECURE LOWER COMPARTMENTS

Enclosed, lockable lower boxes protect power tools and hardware on the jobsite and overnight.

04 RECESSED DOUBLE-PANEL DOORS

Compression whale-tail latching with reinforced door skins.

06 FULL UNDERCOATING SYSTEM

Heavy-duty liner across wheel wells, frame rails, and underbody.

07 5-IN-1 LED DOT TAIL LIGHTS

Stop / turn / tail / reverse / strobe in a single compact fixture.

CONFIGURATIONS

Built around the way your crew works.

Two body lengths. One proven layout. Choose the platform that matches your chassis and your trade.

BODY LENGTH

12' Contractor

FCB1284 — 144" body on 84CA chassis. The standard trade-crew configuration.

BODY LENGTH

14' Contractor

FCB14120 — 168" body on 120CA chassis. Maximum overhead and cargo capacity for material-heavy trades.

STORAGE LAYOUT

Top + Lower Boxes

Overhead top boxes (96.5" × 22" on the 12', 120" × 22" on the 14') with 50" × 18" lower boxes — long tools up top, secure gear below.

CARGO BED

Open Cargo Area

A 59"-wide open bed between the storage packs hauls bulk material and equipment with easy side access.

— FACTORY ACCESSORIES

Equipped for every trade.

Factory add-ons for Falcon bodies. Availability and fitment vary by model and chassis — confirm with your Falcon specialist.

STORAGE

Toolbox Packages

Above- and under-body toolboxes keep tools, hardware, and gear secure and organized.

ELECTRICAL

Lighting & Strobe Kits

Commercial LED stop/turn/tail, marker lighting, and strobe packages keep crews visible on roadside and jobsite work.

PROTECTION

Interior Lining & Finish

Interior body lining and premium Tiger® White powder-coat protect the body through abrasive daily material loads.

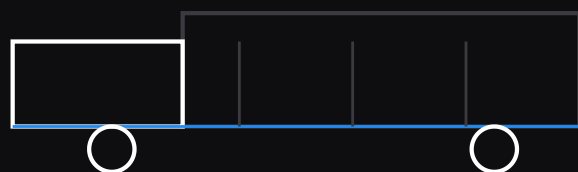

MODEL OVERVIEW

Choose the right contractor body for the job.

TWO PLATFORMS · 84CA AND 120CA
