

— PLATFORM BODY LINEUP / 2026 EDITION

Outlast. Outwork. Outperform.

Heavy-Duty Hauler & Flatbed Solutions. Open-deck platform bodies engineered for hauling versatility across commercial, fleet, and contractor applications.

FALCONBODIES.COM

VOL. 07

— THREE CORE PILLARS —

Built on the principles that define the industry.

Every Falcon Platform Body is engineered around three uncompromising standards — structure, versatility, and fleet readiness.

01 / STRUCTURE

Fleet-Grade Frame

4"–6" structural channel steel frame rails with engineered crossmember spacing — not light-duty consumer beds, but repeat-commercial-use structure.

02 / VERSATILITY

Open-Deck Freedom

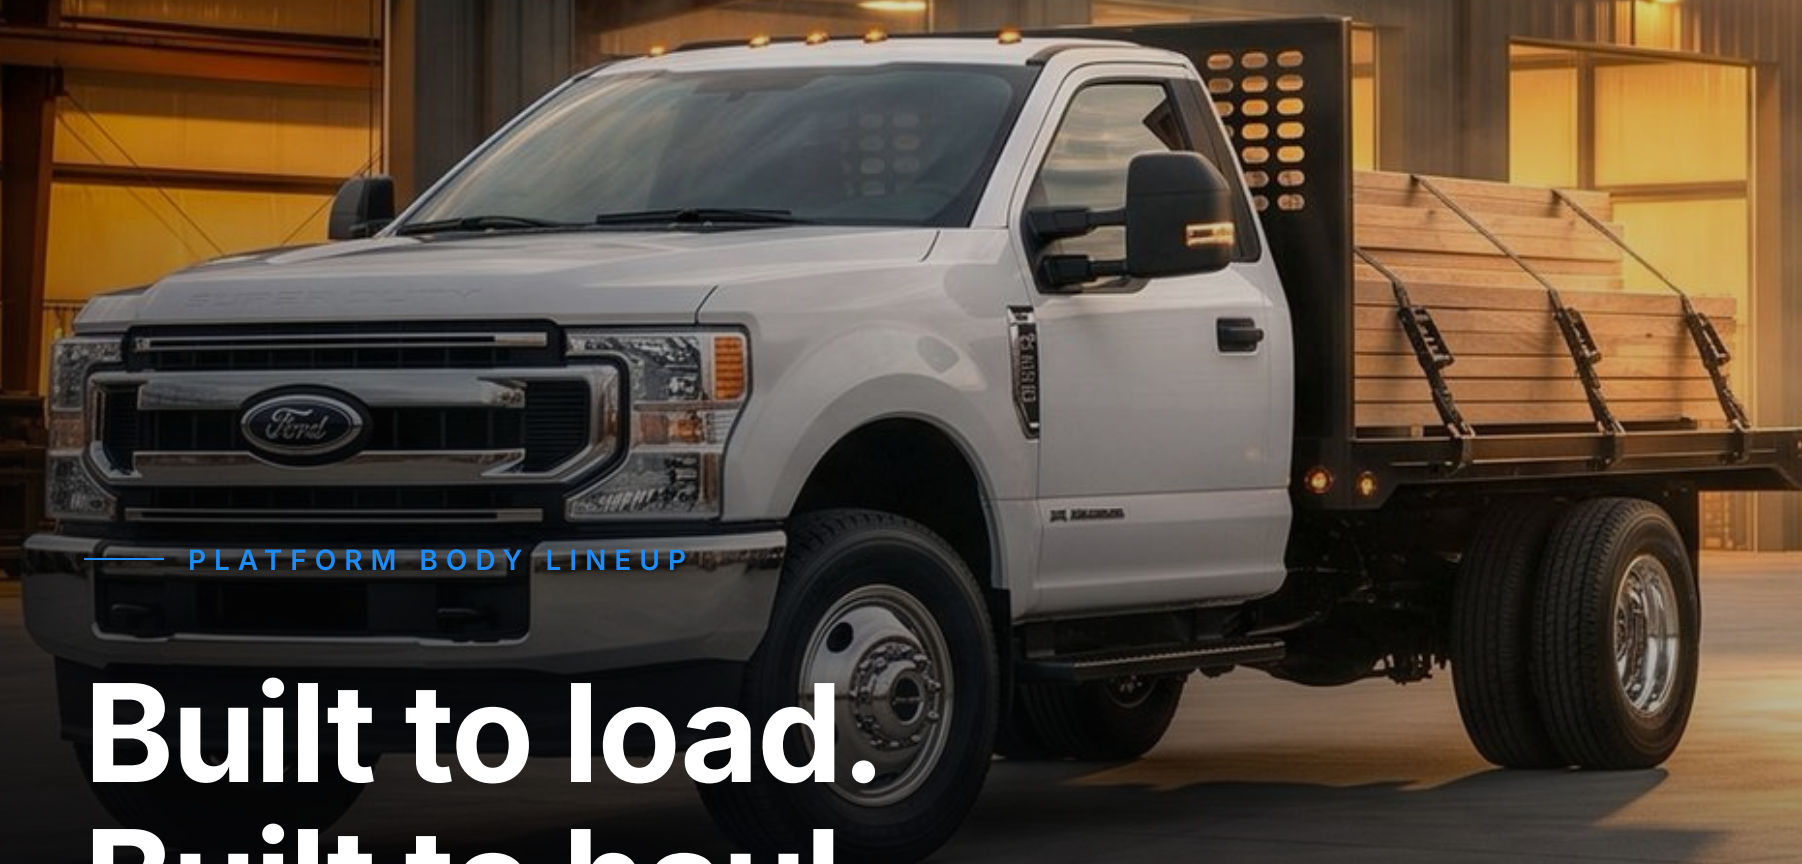

A fully open deck with full-length rub rails, stake pockets, and tie-down points handles irregular and oversized cargo that enclosed bodies can't.

03 / FLEET

Fleet-Ready Design

Repeatable builds for fleet deployment, with chassis fitment confirmed for each order by your Falcon specialist.

**Built to load.
Built to haul.
Built to last.**

— PLATFORM BODY LINEUP

— WHY FALCON

Platform Bodies built for open decks, heavy loads, and **reliability**.

Falcon Platform Bodies are engineered for hauling versatility, structural integrity, and long-term durability. Built on a reinforced steel architecture, they provide a fully open deck for transporting equipment, materials, and oversized loads — with load securement designed in, not bolted on.

12–22'

deck lengths, nine models

96"

deck width, all models

8'

HD concentrated-load runners

FIELD-PROVEN

One common architecture configurable from flatbed to contractor body to specialty hauler.

STANDARD EQUIPMENT

Standard features that set a higher standard.

Every Falcon Platform Body ships with the same uncompromising baseline — because hauling capability shouldn't be optional.

01 STRUCTURAL CHANNEL FRAME

4"–6" structural channel steel frame rails with engineered crossmember spacing for load distribution.

03 STAKE POCKETS & RUB RAILS

Full-length rub rails with integrated stake pockets and multiple tie-down points for straps and chains.

05 LED LIGHTING PACKAGE

Sealed LED stop/turn/tail and DOT-compliant marker lighting with integrated trailer plug systems.

02 INTEGRATED HEADACHE RACK

Fully welded rack protects the cab from shifting loads; optional window cutouts and accessory mounts.

04 ANTI-SLIP DECK SURFACE

1/8" tread plate steel deck for forklift and equipment loading.

06 TOWING INTEGRATION

Gooseneck hitch prep or installed systems plus receiver hitch with trailer wiring. Ratings confirmed per build.

07 CORROSION-RESISTANT FINISH

Multi-stage prep and powder-coat system with optional epoxy primer base layer for long-term exposure resistance.

— CONFIGURATIONS

Built around the loads your fleet hauls.

Nine deck lengths. Standard or heavy-duty runner decks.
Configure the platform that matches your cargo.

—
DECK CLASS

Standard Deck

12-4, 14-4 and 16-4 platforms — flat treadplate decks for general hauling, fleet, and municipal applications.

—
DECK CLASS

HD with 8' Runners

12HD through 22HD — 8' concentrated-load runners for hauling tracked and wheeled equipment.

—
MATERIAL

Steel Deck

Steel treadplate deck built for jobsite abuse. Ask your Falcon specialist about alternative deck materials.

—
SIDES

Stake Side Panels

48" stake sides for 12/16/20' beds and 72" sides for 14/18/22' beds — removable, configurable, load-ready.

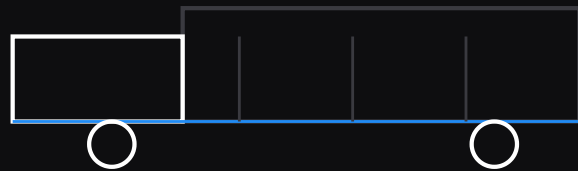

MODEL OVERVIEW

Choose the right platform for the load.

NINE MODELS · 12' THROUGH 22' · 84–168" CA

STANDARD DECK

01

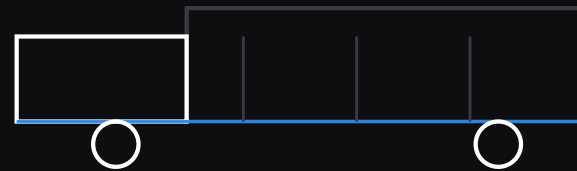

12' / 14' / 16'

12-4 · 14-4 · 16-4

- 84"–140" CA platforms
- 96" deck width
- General hauling & fleet duty

HD RUNNER DECK

02

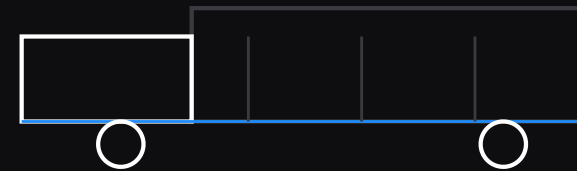

12' – 16' HD

12HD · 14HD · 16HD

- 8' concentrated load runners
- Built for equipment hauling
- Skid steers & small machines

HD RUNNER DECK

03

18' – 22' HD

18HD · 20HD · 22HD

- 138"–168" CA platforms
- Longest deck lengths
- Equipment transport & hotshot

TECHNICAL SPECIFICATIONS

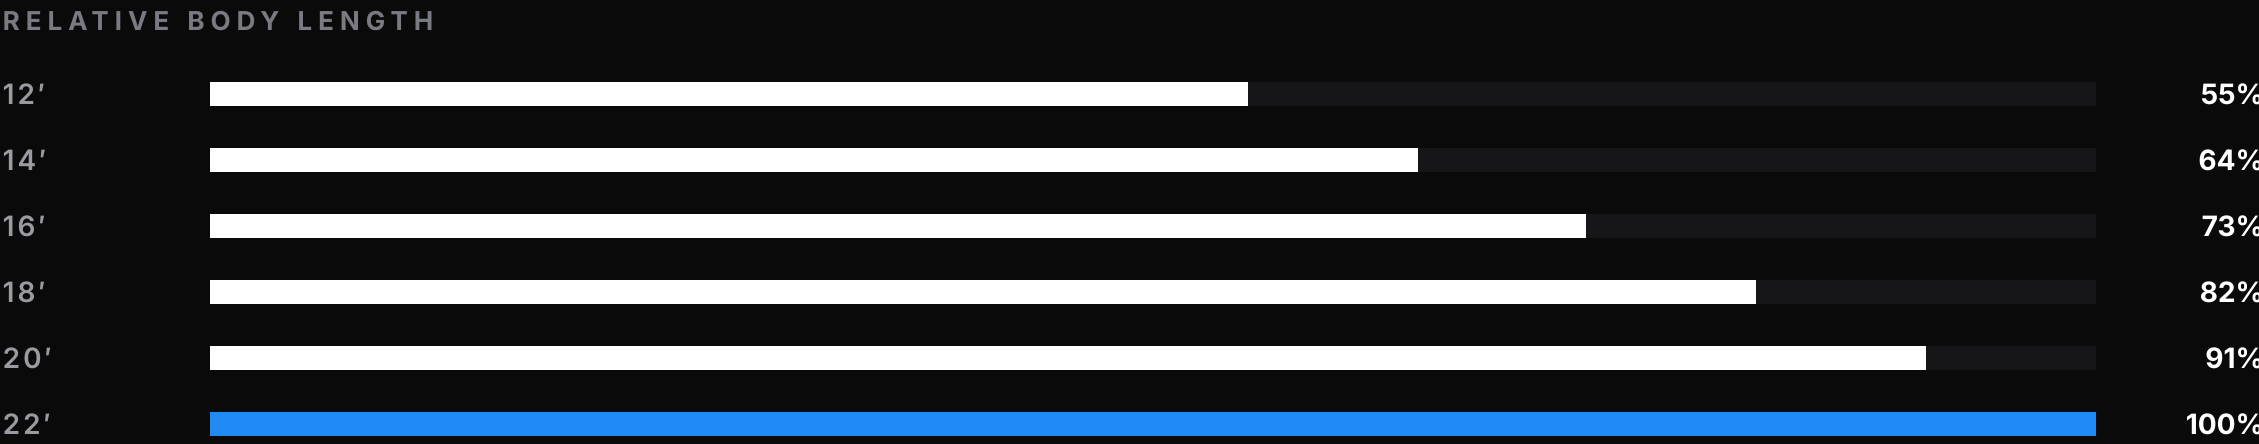

Spec sheet at a glance.

Standard production specifications across the Falcon Platform Body lineup. Custom configurations available on request.

Frame Rails	4"–6" Structural Channel
Deck	1/8" Steel Treadplate
Deck Width	96" All Models
HD Runners	8' Concentrated-Load

Specifications subject to change. CA = Cab-to-Axle. All models DRW. Payload, GVWR, ratings and chassis fitment are confirmed with your Falcon specialist for each build.
